Astralux 7000

awning systems

The Astralux 7000 awning systems are suitable for all types of horizontal, vertical, sloping and angled glazing. As with all Astralux products the systems are designed for use in commercial and public environments providing ease of operation, low maintenance and durability.

DESCRIPTION

These awning systems typically consist of extruded aluminium hardware, stainless steel fittings and durable acrylic fabrics. Operation is usually via a concealed motor and operated by radio control but manual operation is also available for accessible installations.

Astralux 7000

awning systems

The Astralux 7000 awning systems are available in a range of different fabrics:

- Black-out
- Dim-out acrylic
- Translucent acrylic
- Screen

CONTROL OPTIONS

- Gearbox operation with fixed or removable (to prevent unauthorised use) handle
- Motorised 240v systems with sun, wind and rain sensor controls
- Can be linked to virtually any control systems

OPTIONS

- Powder coating of hardware to specific RAL/BS colours
- Shaped blinds

SPECIFICATION GUIDE

With such an extensive range of systems available please contact your Astralux dealer for assistance with a specification based on your requirements and site conditions.

DIMENSIONS

The flexibility of the Astralux 7000 awning systems ensures that glazing can be covered from standard windows up to very large glazed areas including horizontal and sloping glazing.

Contact your Astralux dealer for further information.
