8000

external venetian
blind systems

Control light • Save energy • Preserve view

Astralux 8000

external venetian
blind systems

The Astralux 8000 external venetian blind systems are suitable for all types of vertical glazing including curtain walling. As with all Astralux products the systems are designed for use in commercial and public environments providing ease of operation, low maintenance and durability.

DESCRIPTION

These external venetian blind systems consist of a zinc plated steel headrail, extruded aluminium bottom rail and stove enamelled aluminium slats with either stainless steel cable guides or extruded aluminium side guides. Operation is usually via a concealed motor and operated by radio control but manual operation is also possible.

Astralux 8000

external venetian blind systems

The Astralux 8000 external venetian blind systems are available in a range of different slat widths, colours and finishes:

- 50mm flexible aluminium
- 60mm rollformed aluminium
- 80mm rollformed aluminium
- 88mm “Z” shaped rollformed aluminium

CONTROL OPTIONS

- Motorised 240v systems with sun and wind sensor controls
- Can be linked to virtually any control systems
- Gearbox operation with fixed or removable (to prevent unauthorised use) handle

OPTIONS

- Powder coating of hardware to specific RAL/BS colours
- Automatic tilt device which sets slats to an optimum angle of 40°
- Side guiding via stainless steel cables or extruded aluminium side channels
