

# Linda McCartney Centre, Liverpool

North West's leading breast cancer facility

Vertical blinds in lounge area

Project		Solution	
<p>An existing building was developed to form a state of the art breast assessment unit, a purpose built chemotherapy centre, and an outpatient department. In addition a research and development department was established to oversee over 500 different forms of research within the Royal Liverpool University Hospital.</p> <p>This new facility needed cubicle tracks around bed spaces, blinds to communal spaces and black-out blinds to the clinical services area.</p>		<p>Astralux proposed Silent Gliss 6100 cubicle track system - the most widely used track in the healthcare market.</p> <p>For shading the windows manually operated Astralux 1000 vertical blind systems were installed.</p> <p>To ensure effective black-out in sensitive areas Astralux 4000 fully cassetted dim-out roller blind systems were installed.</p>	
Benefits		Details	
<ul style="list-style-type: none"> <li>• Effective control of glare and solar gain by window blinds</li> <li>• Effective screening of all bed spaces</li> <li>• Smooth running cubicle track for ease of use</li> <li>• Robust black-out solution to research areas</li> <li>• Low maintenance solutions</li> </ul>		<p>Products:</p> <p>Astralux system 1000 vertical blinds</p> <p>Astralux system 4000 dim-out blinds</p> <p>Silent Gliss 6100 cubicle track system</p> <p>Architect:</p> <p>Studio Baad</p> <p>Contractor:</p> <p>John Turner &amp; Sons (Preston) Limited</p>	<p>More pictures</p>
