

Mersey Travel Mann Island, Liverpool

13 storey office block

Roller blinds with screen fabric

Project	Solution	
<p>This 13 storey office block for Mersey Travel is in Mann Island near the 3 Graces.</p> <p>With such a heavily glazed building it was essential to have an effective window blind system to control glare and heat gain.</p> <p>Buildings near water such as this one are often subject to reflective glare from the water even when the sun is not directly shining on the building.</p>	<p>Pentel proposed Silent Gliss 4830 side chain operated roller blinds for the majority of the windows. This high performance roller blind system was fitted with Multiscreen fabric in 5% or 10% openness depending on the facade orientation.</p> <p>For large areas of glazing Silent Gliss 4840 very heavy duty roller blinds were installed.</p> <p>A number of Silent Gliss 4870 motorised roller blinds were installed where automatic operation was required.</p>	
Benefits	Details	
<ul style="list-style-type: none"> • Effective control of glare and solar gain • Robust and easy operating method • Same fabric used throughout irrespective of blind type • Glazing panels covered effectively in a single blind • Low maintenance solutions 	<p>Products:</p> <p>Architect:</p> <p>Contractor:</p>	<p>Silent Gliss 4830 roller blinds 650 Nr - manual operation</p> <p>Silent Gliss 4840 roller blinds 11 Nr - manual operation</p> <p>Silent Gliss 4870 roller blinds 26 Nr - motorised operation</p> <p>All blinds fitted with Multiscreen fabric.</p> <p>Broadway Maylan</p> <p>BAM Construction</p>
