

Medeva Speke, Merseyside

Main reception area

In built walkway for window cleaning

Project		Solution	
<p>The client required external shading to help protect the glazing from summer heat and glare and for the solution to be an architectural feature.</p> <p>Given the structural nature of the Brise Soleil the design and fixing details were discussed at a very early stage of the project.</p>		<p>Astralux designed and installed a 6000/110 external Brise Soleil system.</p> <p>The system used 110mm wide fins in an anodised finish to match the glazing bars used throughout the building.</p> <p>As an integral part of the building envelope the installation required careful planning to comply with build timetables.</p>	
Benefits		Details	
<ul style="list-style-type: none"> • Effective control of glare and solar gain • No maintenance solution • Access provided for window cleaning • Colour matched to glazing bars to create an architectural feature 		<p>Products:</p> <p>Astralux 6000 Brise Soleil</p> <p>Fixed position, complete with walkway to facilitate window cleaning.</p>	<p>Architect:</p> <p>Ove Arup & Partners</p> <p>Contractor:</p> <p>Sir Robert McAlpine</p>
