## venetian blind systems

The Astralux 2000 venetian blind system provides a wide range of blind options for virtually any type of vertical glazing. As with all Astralux products the systems are designed for use in commercial, education, healthcare and leisure environments providing ease of operation, low maintenance and durability.

### DESCRIPTION

Astralux venetian blind systems comprise a steel head and bottom rail with aluminium stove enamelled slats or a steel headrail with wooden slats and a wooden bottom rail. The slats can be tilted to accurately attenuate the amount of light entering the space. Blinds can be manually operated or motorised.

# Astralux 2000

## venetian blind systems

The Astralux 2000 venetian blind system is available in an extensive range of slat widths, colours and finishes:

### Aluminium slats:

- 15, 25, 35 and 50mm wide solid slats
- 25mm wide perforated slats
- Smooth paint or textured finishes

### Fauxwood slats:

- 50mm solid fauxwood slats
- Solid paint and textured finishes

### CONTROL OPTIONS

- Cord and wand, a cord to raise or lower a blind and a wand to tilt the slats
- Mono-command chain, where one continuous chain both raises/lowers the blind and tilts the slats
- Mono-command wand, where the slats are both tilted and raised/ lowered by a polycarbonate wand
- Motorised, low voltage and 240v systems for tilt only or full operation
- Knob tilt for partition glazing blinds

### N10 SPECIFICATION GUIDE

Slats to be solid 15mm\* / 25mm\* / 35mm\* / 50mm\* wide aluminium in colour . . . . .+ Perforated in 25mm, wide in colour . . . . .+ Fauxwood 50mm wide in colour . . . . .+ Operation

to be wand and cord\* / mono control chain\* / mono control wand\* / motorised\* / partition knob\*, slats and cords to be fully colour co-ordinated. Supplied and installed by an approved Astralux distributor.
